

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$100,000	\$100,000	City of Houston	Vehicle Replacement	Replace vehicles and animal transport boxes for Animal Control.		Houston/Wasilla	AG	AG/USDA	
\$120,600	\$120,600	Palmer Soil and Water Conservation District	Facility to produce biological fertilizers	Facility to produce biological fertilizers for sue by Alaska farmers, nursery owners and gardeners to offset the burden of fluctuating inorganic fertilizer pricing.	Make use of organically bound Nitrogen and reduce the need for inorganic inputs in fertilizer production.	Mat-Su Valley	AG	USFS	
\$191,793	\$291,000	Dolce Fuels	Dolce Fuels	Provide for the cultivation of Sugar Beets in rural Alaska	Will allow for creation of Sugar Beet industry, including biofuels and livestock feeds	Anchorage, AK	AG	USDA	
\$364,375	\$366,730	City of Bethel	City Shop Insulation Project and Recycling Center Renovation	Funds for a contractor to insulate the city's shop facilities and renovate the Bethel recycling center with insulation and other materials	Energy Efficiency	Bethel	AG	AG/USDA	
\$510,000	\$510,000	City of Houston	Public Works Maintenance Building	Design and Engineering funds for new maintenance facility.		Houston	AG	AG/USDA	
\$525,000	\$5,750,000	City of Wasilla	Garden Terrace Water Main - Abby Blvd.	Replaces an undersized water main	Economic Stimulus	Wasilla	AG	EPA or RD/ Water Wastewater	
\$645,000	\$700,000	Alaska State Fair	Bleachers	installing bleachers		Palmer	Ag		
\$700,000	\$775,000	Chenega IRA Council	Sewer Line to Subsistence Building	Install water and sewer in the Chenega Subsistence Building where game meat relied on by residents is processed.	The federal govt has a trust responsibility to help American Indians and Alaska Natives provide basic health and safety. Completion of the water and sewer system will improve health and safety.	Chenega Bay	AG	AG/RUS	Doug Fuller
\$910,000	\$1,010,000	City of North Pole	North Pole Utility Garage Construction	Funds construction of facility used to house and repair utility maintenance vehicles	Clean Water Act	North Pole	AG	RUS	
\$993,740	\$993,740	City of Houston	Meadowview Subdivision road upgrades	Reconstruct 4153 liner feet of road in Meadowview Subdivision.	This subdivision is part of the AK Community Development Corp USDA Rural Self-Help Housing Program.	Houston	AG	AG/USDA	
\$1,000,000	\$1,638,000	Fairbanks North Star Borough	Wildfire Mitigation, Phase Three	Continue wildfire mitigation efforts through hazardous fuel reduction within diseased black spruce forests.	These forests are on state, Federal and Borough properties and if not thinned and fires result, military installations, the Trans-Alaska Pipeline and other Federal lands are at risk of being damaged/destroyed.	Fairbanks	AG	AG/USDA	Doug Fuller

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$1,050,000	\$1,050,000	City of Houston	Fire Equipment	Purchase and equipping new rescue truck, fire tender and fire engine		Houston	AG	AG/USDA	
\$1,053,000	\$1,053,000	City of Houston	Road Maintenance Equipment	Purchase community's own equipment to do its own road maintenance and repair on municipal roads,		Houston	AG	AG/USDA	
\$1,196,753	\$7,978,358	Chenega IRA Council	Public Safety and Community Building	Building to house emergency vehicles and response equipment and office space for a variety of state and federal agencies.	The federal govt has a trust responsibility to help American Indians and Alaska Natives provide basic health and safety. Additionally, the Alaska Rural Justice and Law Commission (created by Congress) recommended in their initial report in 2006, improvements in rural Alaska infrastructure to support public safety.	Chenega Bay	AG	AG	Doug Fuller
\$1,200,000	\$1,200,000	Ketchikan Gateway Borough	Nonareawide Wastewater Treatment and Disposal	To design and construct two new wastewater pump stations and upgrade a wastewater treatment facility	None	Ketchikan	AG	Rural Development	
\$1,470,000	\$3,175,000	Native Village of Kluti-Kaah	Multipurpose Facility	Will provide a place for community and village-based individual support and education/tutorial services, a health clinic wing and a Head Start facility.		Copper Center	AG	USDA/RD	
\$1,725,000	\$10,650,000	City of Craig	Water and Wastewater System Planning	Repair and replace aging infrastructure	Jobs and Infrastructure	Craig	AG	Rural Utilities Service, Rural Water and waste disposal programs	
\$1,900,000	\$1,900,000	Great Alaska Council, Boy Scouts of America	Youth Outdoor Education Center	Build a multi use facility for teaching outdoor education to youth and other groups and as an emergency shelter/search and rescue center at base of Denali	Provides outdoor education to youth throughout the country and state	Anchorage, AK	AG	Rural Development, Community Facilities Programs	
\$2,000,000	\$2,000,000	KTOO	Grant to Broadcasting Systems Program	Grants to allow the public television station to operate and produce programs	Existing National Grant Program	Whole State	AG	Rural Development	

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$2,700,000	\$2,700,000	Ketchikan Gateway Borough	Mt. Point Water System - Herring Bay Domestic Water	New water distribution system that meets federal standards for domestic potable water.	The system will also serve as a fire protection system for the community and neighboring federal lands.	Ketchikan	AG	AG/USDA	Steve Silver
\$2,700,000	\$2,700,000	Ketchikan Gateway Borough	Mt. Point Water System-Herring Bay Domestic Water	Construct and design a new water distribution system for the Herring Bay Community that will meet the federal standards for potable water compliance	Federal Compliance	Ketchikan	AG	Rural Development	
\$4,606,548	\$4,606,548	City of Ketchikan	City water distribution and wastewater infrastructure	Replace the water distribution and wastewater collection mains in various locations throughout the city	Jobs and stimulus, in addition to maintaining a safe water supply for the residents, and a town whose economy is primarily driven by tourism	Ketchikan	AG	Rural Utilities Service, Rural Water and waste disposal programs	
\$5,000,000	\$5,000,000	City of Houston	Animal Control Building	New facility for animal control shelter and protection		Houston/Wasilla	AG	AG/USDA	
\$6,000,000	\$20,000,000	Northwest Arctic Borough	sewer and water	sewer and water for entire village		Buckland	Ag	USDA-RD	Ferguson
\$6,050,000	\$6,050,000	City of Ketchikan	City water distribution and wastewater infrastructure	Replace the water distribution and wastewater collection mains in various locations throughout the city	Jobs and stimulus, in addition to maintaining a safe water supply for the residents, and a town whose economy is primarily driven by tourism	Ketchikan	AG	Rural Utilities Service, Rural Water and waste disposal programs	
\$7,480,000	\$20,750,000	City of Cordova	Cordova Center	Construction of a multi-use, energy efficient economic development building.	The City of Cordova was devastated by the Exxon-Valdez oil spill. The oil spill killed many animals, and the fishery upon which the economy depended still hasn't recovered. The Cordova Center will help to foster a year-round diversified economy in Cordova and may provide space for research and historic materials related to the Exxon-Valdez, an event that continues to shape Cordova and communities of Prince William Sound.	Cordova	AG	AG	Doug Fuller
\$8,000,000	\$24,000,000	Northern Industrial Training	vocational facility	200,000 square ft vocational and community training facility		Palmer	Ag		

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$10,000,000	\$10,000,000	City of Houston	Public Safety Building	Construction of a new Public Safety Building which would allow the City of Houston to open a second fire station.		Houston/Wasilla	AG	AG/USDA	
\$15,000,000	\$15,000,000	Alaska State Fair	Enclose Farm Exhibits Building	90,000 square foot facility	in addition to fair, can be used for emergency shelter for farm animals	Palmer	Ag		
\$15,000,000	\$15,000,000	Mat-Su Borough	Agricultural Food Processing Center	freeze-process and bottle juice, fruits, etc	addresses food security problem and shrinking farms in America	Mat-Su	Ag		Ferguson
????????	????????	City of Kotzebue	Fiber Energy Development Program	Uses the region's natural gas resources to upgrade electricity potential by creating a power grid, and creating a fiber telecommunications infrastructure	None	Kotzebue	AG	Rural Utilities Service	
\$126,957	\$189,000	First Alaskans Institute	Alaska Native Policy Center	impact of 2010 census on Alaska Natives	Designated as a Census Information Center by the US Census		CJS		
\$185,934	\$185,934	Gulf of AK Coast Communities Coalition	GOAC3 Study Funding	Funds the study of erosion and its impact on small fishing communities	Promotes the continued viability of small fishing communities in the Gulf of Ask	Statewide	CJS	NOAA/NMFS	
\$400,000	\$2,398,000	Muni of Anchorage	Health and Human Services	Sexual Assault Response Team Center	Providence, Troopers, Anchorage Police, and Children Services all use facility	Anchorage	CJS		
\$410,000	\$410,000	Muni of Anchorage	crime scene investigations vehicle	old 1991 vehicle needs to be replaced	new vehicle will enable CSI to respond quickly to violent deaths	Anchorage	CJS		CJ, Katie, etc
\$450,000	\$450,000	Kenai Peninsula Borough	Kenai River Center Projects	Provide continued funding for research and operating costs for the Kenai River Center	Salmon Spawning research	Soldotna	CJS	Dept. of Commerce, NOAA Facilities and Research	Steve Silver

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$450,000	\$3,650,000	AK Native Harbor Seal Commission	Co management of Harbor Seals and Sea Lions	Supports base co-management operations of the AK Native Harbor Seal Commission and Harvest Assessment Program which documents the level of subsistence harvests of harbor seals and sea lions in coastal Alaska	Fulfill the congressional mandate to co-manage the subsistence harvest of marine mammals under the Marine Mammal Protection Act	Anchorage, AK	CJS	NOAA-Marine Mammal Program, Protected Resources	
\$500,000	\$800,000	Yukon River Drainage Fisheries Association (YRDFA)	Promote healthy wild salmon fisheries on the Yukon River	Conduct monitoring, research and educational efforts for subsistence and commercial fisheries along the Yukon River	The federal govt is obligated to maintain sustainable salmon runs on the Yukon River through the Yukon River Salmon Agreement and to provide a subsistence priority under the AK Native Interest Claims Act. YRDFA plays a key role in maintaining the salmon runs for which the federal government is responsible for managing.	Interior AK	CJS	NOAA/NMS	
\$500,000	\$1,525,000	The Indigenous People's Council for Marine Mammals	Sea Lion Biosampling	Carry out biosampling program of sea lions harvested by subsistence hunters	Allow for the further understanding of the biology of Steller sea lions and help to promote sound and responsible subsistence hunting	Anchorage, AK	CJS	NOAA NMF- Marine Mammals and Fisheries	
\$857,177	\$2,114,376	City of White Mountain	Public Safety Building	Construct Public Safety Building to house volunteer fire department, search and rescue department and Village Public Safety Officer	Removes overcrowding issue, increases the ability of emergency services to quickly respond	White Mountain, AK	CJS	Unknown	
\$1,200,000	\$2,100,000	State of AK	US/Canada Yukon River Salmon Agreement Studies	Allows the State to monitor Yukon River salmon populations and	Provide the necessary information to support negotiations between US and Canada under the Yukon River Salmon Agreement	Statewide	CJS	NOAA	

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$1,665,000	\$1,665,000	Chenega IRA Council	Marine Services Center	Construct a Marine Service Center Building that will provide a critical fuel and safety link for ferries, boaters and fishermen.	The village of Chenega is a stop on the AK Marine Highway system which was named an All American Road by the Federal Highway Administration. If constructed the facility could be utilized by the Coast Guard in Western Prince William Sound.	Chenega Bay	CJS	Denali Commission	Doug Fuller
\$2,000,000	\$2,000,000	APICDA	St. Paul and St. George Ferry Boat Acquisition	Seeks to develop a ferry terminal at St. Paul and St. George and/or acquire a ferry	The Pribilof Islands are in the middle of the largest fishery in the US and home to extensive climate change research	St. Paul and St. George Islands	CJS	EDA or Commerce/Econ Development A	C.J. Zane
\$2,000,000	\$2,000,000	State of AK	Bering Sea Crab Management and Research	Bering Sea crab productivity and sustainability research	To restore crab stocks	Statewide	CJS	NOAA	
\$2,000,000	\$10,000,000	Northwest Arctic Borough	Regional public safety	VPO housing, training, transportation		Northwest Arctic Borough	CJS		Ferguson
\$2,500,000	\$2,500,000	Wrangell Borough	Wrangell Marine Service Center Upgrades	Provides funding to construct and upgrade a marine service center	Allows the community to pursue further econ. Development by servicing fishing and tourist vessels	Wrangell	CJS	DOC/EDA	Brad Gilman
\$2,500,000	\$20,000,000	City of Kodiak	Kodiak Heavy Lift Dock Construction	Builds a heavy lift boat dock for commercial vessels	Promotes access to federally-managed fisheries and economic development	Kodiak Island	CJS	DOC/EDA	Brad Gilman
\$2,744,646	\$7,551,240	City of St. Paul	Landfill Construction Phase 2	Construct a new transfer facility at the old, full, landfill for sorting, recycling, reduction and HazMat collection		St. Paul, AK	CJS	NOAA	Carlos Mateo Paz-Soldan
\$3,000,000	\$3,000,000	TDX Corp	Pribilof Island Research Expansion	Provides an environmental impact analysis for expanded research facilities and asks for a language change to extend the Pribilof Island Transition Act for Econ Development through 2009	Fulfills govts. responsibility to provide funding for econ development funding as an alternative to Pribilof fur seal harvests, banned under federal law	Pribilof Islands	CJS	NOAA/NOAA Opps/National Ocean Service Conservation...	C.J. Zane
\$3,200,000	\$4,380,000	State of AK	Seal and Steller Sea Lion Biological Research	Funds monitoring of ice seal populations in Native villages, research on species delineation and genetics of harbor seals.	Continued monitoring is necessary to better understand declines in population and to provide for population restoration	Statewide	CJS	NOAA	

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$4,510,000	\$61,000,000	Barrow Global Climate Change Research Facility	Logistics Support Center	Phase II of the facility. Space to support the mobilization of people, gear, and equipment who are in place to conduct research at the facility.	The Barrow Global Climate Research Facility will fill a large void in research support in the U.S. Arctic on the shores of the Chukchi Sea. It will become an important U.S. contribution to a comprehensive global observation system.	Barrow	CJS	NOAA	Doug Fuller
\$5,000,000	\$5,000,000	Alaska SeaLife Center	Pinniped Research Program	Understand causes of the declines and attributes supporting recovery of Steller sea lions and other pinnipeds such as harbor seals and northern fur seals	Research decline federally listed endangered Steller Sea Lion and other pinnipeds	Seward, AK	CJS	NOAA, NMF-Protect Species Management	Brad Gilman
\$5,000,000	\$9,000,000	City of Hoonah	Hoonah Marine Industrial Center	Design and development of Phase III of the Hoonah Marine Industrial Center to include parking/working surface, utility building and all infrastructure improvements	Provide conveniently located maintenance to the Alaska fishing fleet allowing continued employment and essential food supply to Alaska and the nation	Hoonah, AK	CJS	EDA	
\$5,000,000	\$49,000,000	City of Unalaska	High Efficiency Diesel Generator	Partially fund the acquisition of new, high efficiency diesel generators for Unalaska	Provide lower energy costs for Unalaska residents and businesses while lowering the carbon footprint	Unalaska, AK	CJS	DoC, Economic Development	Brad Gilman
\$5,200,000	\$19,229,000	State of AK	Statewide Drug and Alcohol Interdiction, Rural Law Enforcement Training and Equipment	Provide training and emergency response/search and rescue equipment for VPSOs and VPOs	Continue concentrated prevention and trafficking illegal alcohol and drugs.	Statewide	CJS	DOJ	
\$6,700,000	\$8,300,000	Haines Borough	Haines Boat Harbor Waterfront Development	Funds upland and waterfront development that accompany the new boat harbor	Economic Development of the Federal Fisheries	Haines	CJS	DOC/EDA	Brad Gilman
\$8,000,000	\$8,250,000	State of AK	Pacific Salmon Treaty Implementation	Funds Alaska, Washington, Oregon and Northwest Treaty Indian Tribes	Meeting Federal obligations under the Pacific Salmon Treaty	Statewide	CJS	NOAA	
\$15,000,000	\$15,000,000	North Slope Borough	NSB Communication System Project	emergency communications infrastructure	911 dispatch is outdated	North Slope Villages	CJS		Jack Victory

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$19,000,000	\$19,000,000	Gulf Communities Fisheries and Development Corp	CQE Purchase Assistance	Quota purchase assistance for halibut and sablefish, for individual in the Gulf of AK, language directing Fisheries Finance Program (NOAA) to create new loan authority and language to authorize these new loans	Promotes increased management of the local fisheries	Statewide	CJS	NOAA Fisheries Finance/Quota Purchase	Justin Stiefel/Roy Jones
\$34,000,000	\$34,000,000	Ocean Services LLC	Hydrographic Performance Efficiency Program	Addresses the hydrographic survey backlog in Alaska and the Gulf of Mexico to improve navigation	NOAA believes there is a critical need to address this backlog for reasons international and national maritime transportation, national defense, fisheries and emergency tsunami response	Alaskan Waters/Gulf of Mexico	CJS	NOAA/National Ocean Service	C.J. Zane
\$9,886,485	\$39,800,000	AIDEA	Ketchikan Shipyard	Expansion and Improvements to Ketchikan's shipyard	Supports industry and NOAA Research	Ketchikan	CJS or EW	DOC, NOAA or Corps, construction	
Language	Language	Biopar, LLC	Non-Invasive Biological Pattern Recognition	For threatened and endangered species and project	Allows for a faster, cheaper and less invasive pattern recognition	Statewide	CJS or INT	USFWS/Bureau of Rec or NOAA/NMFS	Justin Stiefel
\$1,500,000	\$1,500,000	TDX Corp	St. Paul Island Airspace Improvements	Funds airplane and airport safety navigational equipment that allow for GPS assisted land approaches	St. Paul Island in the middle of the largest fishery in the US and home to extensive climate change research	St. Paul Island	CJS or THUD	Dept. of Com/Econ Develop/ EDA or THUD/DOT/FA A/Facilities+Equip	C.J. Zane
\$3,000,000	\$3,000,000	Triverus	Navy MCRRS	Production of flight deck cleaning vehicle for Navy	Improves efficiency and restore a higher coefficient of friction on Aircraft Carrier non skid surfaces	Palmer, AK	DEF	Dept. Navy, RTD&E	
\$5,000,000	\$9,065,000	AF Advanced Power Technology Office	Biomass Waste to Energy	Install Waste to Gas energy system at Eielson AFB	Help reduce dependence on foreign oil and meet Air Force alternative energy requirements	Eielson AFB, AK	DEF	AF, RDT&E	Renee Comley
\$5,000,000	\$9,600,000	Alaska Native Technologies, LLC	Undersea Littoral Gliders Sensors	Continue the development of the sensor design package that is installed on the Littoral Glider	Improve sensor package for Undersea Gliders used by Navy in ISR	Anchorage, AK	DEF	Navy, RDT&E	Brad Gilman
\$5,200,000	\$5,200,000	Battle Command Battle Lab	Inter-Structure Tracking Effort	Enhance a prototype system to track personnel and objects inside multiple structure types	Meets Army's need for Tagging, Tracking & Locating systems that works with existing Blue Force Tracking systems and can operate in an uncontrolled EM environment	Ft. Huachuca, NM	DEF	Army, RDT&E	Greg Thom

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$6,000,000	\$6,000,000	Battle Command Battle Lab	OPUS GSN	Integrates commercial technology to support SOCOM's GWOT by enabling accurate and optimal placement of a variety of unmanned sensors	Meets SOCOM need	Ft. Huachuca, NM	DEF	DW, RDT&E	Greg Thom
\$6,300,000	\$18,000,000	KRD, Inc.	AutoScan Under-Vehicle Inspection System	Product enhancements and beta testing of AutoScan generation 2 and 3 architecture	AutoScan makes it possible fore inspection personnel to maintain a safe stand off at base entry, provides a real time picture of vehicle underside and stores images	Homer, AK	DEF	OSD, Nuclear and Conventional Physical Security Equipment	
Classified	Classified	National Geospatial Intelligence Agency	OPPTIS for Littoral Net Centric Operations	Provides multi-sensor capability for littoral battle space specific data and effects based targeting	Meets two unfunded NGA requirements and one unfunded USSOCOM priority	NGA	DEF	NGA, RDT&E	Greg Thom
\$125,000	\$150,000	City of North Pole	Utility Security System	Upgrade security system of utility systems to prevent security breaches	North Pole refineries were identified by DHS as critical infrastructure and any coordinated attack would include an attack on the utility systems in North Pole	North Pole, AK	DHS	Unknown	
\$25,000,000	\$25,000,000	TKC Aerospace	Maritime Patrol Aircraft	Acquisition of Maritime Patrol Aircraft for hire by USCG	USCG is nearly 50% below its required MPA hours in 2008	South Carolina	DHS	USCG, Operating Expenses	
\$5,000,000	\$45,000,000	Alaska Railroad Corp	Joint Donnelley-Tanana Training Complex	Begins construction of a bridge and access roads that would be used for access to the Donnelley-Tanana training complex	Supports mission requirements to move troops and equipment safely to and from Donnelley and Tanana Flats training complex	Fairbanks North Star Borough	DOD		C.J. Zane
\$15,000,000	\$690,000,000	Port of Anchorage	Port of Anchorage Expansion Project	Funds an intermodal expansion of the Port of Anchorage	The Port of Anchorage was designated as a DOD "strategic port" and supports deployments and cargo for Elmendorf AFB, Fort Richardson, Fort Greely, Fort Wainwright and Eielson AFB	Anchorage	DOD	Economic Assistance/Ope ration and Management, Defense-Wide	C.J. Zane
Language	Language	Alutiiq LLC and Afognak Native Corp	FAR Contract Cost Principle and Procedure Rule Amendment	Permits Native American contractors to include educational and training expenses directly in support of shareholders/tribal members as allowable costs that may be included in the contractors government contract rate	Benefits the interest of all Native Americans across the US	Nationwide	DOD	Defense Contract Audit/Authorizat ion Language	C.J. Zane

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
Language	Language	Alutiiq LLC and Afognak Native Corp	DOD Contractor Performance Exception	In the process for conversion of DOD civilian positions to contractor performance, preserves the opportunity for sole source performance by certain disadvantaged groups	Applies nationally to all DOD contractors	Nationwide	DOD	Defense/Gen Provision Language	C.J. \$142,142	\$142,142	Palmer Soil and Water Conservation District	Wind Turbines	Erect 8 wind turbines to determining the viability of developing a community-owned wind cooperative.	Promotes energy independence and decreases pollution.	Palmer	EW	DOE	
\$200,000	\$2,666,666	City of Bethel	Small Boat Harbor Channel Approach	Dredging to make a deeper channel	COE Fulfilling their past commitments	Bethel	EW	Corps. Of Engineers, Construction	
\$251,000	\$600,000	City of Thorne Bay	Solid Waste Cell Closure/New Cell Creation and Recycling	Closing the only DEC-approved in-ground landfill on Prince of Wales Island and opening a new one.		Prince of Wales	EW		
\$500,000	\$500,000	Hydro Green Energy	Hydrokinetic power feasibility study	Study Yukon River flow under ice conditions for its hydrokinetic potential.	Addressing seasonal variation will benefit hydrokinetic projects throughout the U.S. The energy Independence and Security Act of 2007 identified free flowing water as a source of renewable energy and authorized support for research, development, demonstration and commercialization of hydrokinetic energy.	Tanana	EW	DOE	
\$500,000	\$500,000	Valley Community Recycling Solutions	Alternative Energy Systems and Resource Development	Funds the acquisition of 2 wood fired boilers, housing for the boilers among other things	Provides a national model for viable resource management, education and community engagement	Wasilla	EW	Energy/Energy Efficiency and Renewable E	

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$500,000	\$750,000	APICDA	Atka Harbor Feasibility Study	Studies the feasibility of a harbor in city of Atka on Atka Island	Atka is an important harvesting and processing location for the Bering Sea, one of the most productive fisheries in the US and the world	Atka	EW	Corps/Studies and Investigations	C.J. Zane
\$522,633	\$8,945,073	Native Village of Eyak	Wind Energy Project	Study the feasibility of implementing a wind energy program	Creates renewable energy source reducing need for diesel fuel	Cordova, AK	EW	DoE	
\$750,000	\$2,250,000	Association of Village Council Presidents	Kuskokwim Region Hydropower Feasibility	Study to determine feasibility of pursuing a hydroelectric project for communities along the Kuskokwim River.	Potential reduction of consumption of a depleting oil resource, eliminating greenhouse gas from the atmosphere and reducing the amount of government transfers for energy assistance in the region,	Bethel (YK-Delta)	EW	DOE	
\$800,000	\$36,000,000	City of Whittier	Boat Harbor Feasibility Study	Study the feasibility of a new boat harbor	Provide harbor space for recreational and commercial small vessels, improving the economy and creating jobs	Whittier, AK	EW	Army Corps, General Investigations	
\$1,000,000	\$1,000,000	Inside Passage Electric Cooperative	Hoonah Geothermal resource development	Drilling for geothermal energy project.	Project will significantly decrease CO2 emissions.	Hoonah	EW	EWD/RUS	
\$1,000,000	\$1,500,000	City of Seward	Flood Diversion Tunnel Maintenance	Provide funding for the Army Corps for maintenance and repair of the flood diversion tunnel in Seward's Lowell Canyon	Protection of public health and safety through natural disaster mitigation and improved flood control	Seward, AK	EW	Army Corps, O&M	Brad Gilman
\$1,000,000	\$20,000,000	City of Valdez	Valdez Harbor Improvements	Preconstruction, Engineering and Design	Home of marine terminal for the Trans Alaska Pipeline	Valdez	EW	Army Corps/AK District	
\$1,300,000	\$3,300,000	Wrangell Borough	Wrangell Borough Energy Efficiency Power Plant Improvements	Funds a new energy efficient heating system allowing the community to tap into hydropower	Promotes the use renewable energy and reduces fossil fuel consumption	Wrangell	EW	DOE/Energy Efficiency	Brad Gilman
\$1,350,000	\$2,000,000	City of Gustavus	Breakwater and Transient Mooring Facility	Construct a steel breakwater float and a timber mooring float to replace existing dock and trestle facility.	A new facility will provide expanded capacity and improved efficiency which will benefit the commercial fishing industry.	Gustavus	EW	Army Corps	
\$1,500,000	\$1,500,000	City of Kotzebue	Small Boat Harbor	The Shore Ave. erosion project with displace some people who use one of the existing docks. This project would expand and dredge the Swan Lake facility	None	Kotzebue	EW	Corps. Of Engineers, Construction	

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$1,500,000	\$1,500,000	City of Bethel	Bethel Seawall Repairs and Upgrades	Welding, replacing caps on pilings, depositing rock, replacing tilebacks, construction and repairs of ladders on seawall, etc	Ensure barges from the Lower 48 can continue to dock along the Kuskokwim	Bethel	EW	Corps. Of Engineers, Construction	
\$1,500,000	\$1,747,000	Tanadgusix Foundation	TDX Hydrogen Project	Funds the manufacturing of hydrogen fuel cells and hydrogen to power a fleet of vehicle on St. Paul Island	Demonstrates to the nation, the benefits of Hydrogen power as a renewable energy source	St. Paul Island	EW	Energy/Energy Efficiency and Renewable E	C.J. Zane
\$1,500,000	\$10,000,000	City of Petersburg	Harbor Dredging	Dredge harbor to support harbor improvements and upgrade	Would restore the channel to its federally authorized depth and stabilize Petersburg maritime economy as well as promote safe maritime navigation, tourism, interstate commerce and improved access for fishing vessels	Petersburg, AK	EW	Army Corps, O&M	Brad Gilman
\$1,664,358	\$1,664,358	Village of Tatitlek	Wind Turbine/Diesel Power Station	Development of a high penetration hybrid wind turbine/diesel power station.	Located 1 mile from the Exxon Valdez spill site, recover has been slow. This project will preserve the community's long-term viability while at the same time developing alternative energy options that can be duplicated throughout the U.S.	Tatitlek	EW	DOE	Birch Horton
\$1,750,000	\$200,000	City of North Pole	LED Streetlight Upgrade	Replace current streetlights with LED lights	Lower energy costs for the city of North Pole and promote energy efficiency	North Pole, AK	EW	Unknown	
\$1,850,320	\$1,850,320	Native Village of Eyak	Biomass Waste to Energy	Develop a heating system using wood and cardboard waste	Creates renewable energy source reducing need for diesel fuel	Cordova, AK	EW	DoE	
\$2,000,000	\$2,000,000	Hydro Green Energy/City of Galena	Hydrokinetic power technology demonstration	Modeling, fabrication, installation and monitoring of technology on the Yukon River.	Addressing seasonal variation will benefit hydrokinetic projects throughout the U.S. The energy Independence and Security Act of 2007 identified free flowing water as a source of renewable energy and authorized support for research, development, demonstration	Galena	EW	DOE	
\$2,000,000	\$2,000,000	City of Kodiak	Kodiak Harbor Improvements	Dredges Kodiak's two harbors	Promotes access to federally-managed fisheries	Kodiak Island	EW	Army Corps/Opps	Brad Gilman

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$2,000,000	\$4,000,000	City of Seward	Spur Breakwater Construction	Construction of a spur breakwater to correct an Army Corps design deficiency for the Seward Small Boat Harbor	Provides safe maritime navigation, economic development and promotion of interstate commerce	Seward, AK	EW	Army Corps, Civil Works	Brad Gilman
\$2,100,000	\$2,100,000	Maniilaq Association	Energy Relief	Emergency relief of energy costs due to the record oil prices in the summer of 2008	Maniilaq Association is the sole provider of health and social services to the people of Northwest Alaska and was forced to cut services due to energy costs	Kotzebue, AK	EW	Unknown	
\$2,250,000	\$2,250,000	AK Village Electric Cooperative	HVDC Transmission Line Construction	Phase two of construction project, comprised of design, construction and testing of a fully functional converter module and innovative transmission line system	Allow for the connection of small village energy systems, lower costs and increasing reliability in rural AK	Anchorage, AK	EW	Unknown	
\$2,310,000	\$2,310,000	City of Ketchikan	Whitman Lake Hydroelectric Project	Funding needed for final design and permitting/initial site work	Reduces pollutants and reliance on foreign energy source	Ketchikan	EW	DOE, Water Power Energy	
\$3,000,000	\$3,000,000	Kenai Peninsula Borough	Seward/Bear Creek Flood Service Mitigation	Increases the ability to implement strategies to reduce or prevent flooding hazards in the area	Public safety	Seward	EW	Army Corps	
\$3,000,000	\$4,000,000	City of Bethel	Riverbank Stabilization Project	Complete the repairs and upgrades to the Bethel seawall	Ensure barges from the Lower 48 can continue to dock along the Kuskokwim	Bethel	EW	Corps. Of Engineers, Construction	
\$3,000,000	\$12,100,000	Cordova Electric Cooperative	Rebuild Hydroelectric Project	Rebuild hydroelectric project damaged in flooding	Returns renewable energy source in a more sustainable location, reducing need for diesel fuel	Cordova, AK	EW	DOE	
\$3,100,000	\$3,100,000	City of Cordova	Breakwater improvements	Improvements to the north breakwater at the entrance to the small boat harbor to provide adequate protection from winter storms.		Cordova	EW	Army Corps	Doug Fuller
\$3,100,000	\$10,100,000	Bristol Bay Borough	Port Expansion Phase 1	Constructing a sheet pile dock and addition 200 feet down river next to the existing pile concrete dock	Strengthen fishery and the main hub in SW AK	Naknek	EW	Corps. Of Engineers, Construction	
\$3,150,667	\$3,402,653	City of Bethel	Bethel City Shop Wind Project	purchase and installation of two commercial wind turbines	Reduces pollutants and reliance on foreign energy source	Bethel	EW	DOE, Wind Power Energy	

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$3,500,000	\$5,300,000	Cordova Electric Cooperative	Diesel Electric Generator	Install a new diesel electric generator and jacket water heat recovery	Improves energy efficiency, lowering costs and use of diesel fuel which reduces emissions and dependence on foreign sources of energy	Cordova, AK	EW	DOE	
\$3,760,030	\$5,017,258	Mat-Su Resource Conservation and Development	Lake Excavation	Excavate approximately 250,000 cubic yards of material to create an 11 acre pond	This would create additional habitat for Coho fingerlings in the Wasilla Creek drainage and would also create jobs along with the additional habitat	Wasilla, AK	EW	Unknown	
\$4,000,000	\$49,500,000	Nushagak Electric Telephone Cooperative	Hydropower Project	Two phase project to replace at least one million gallons of diesel consumed annually.	Serves national interest by replacing diesel fuel generated electricity with clean renewable hydropower.	Dillingham	EW	DOE	
\$5,000,000	\$5,000,000	AK Village Electric Cooperative	Storage Tank Removal	Removal of over 1000 decommissioned fuel storage tanks in Alaskan Villages	Tanks were originally installed by BIA and need to be removed to protect the communities environment and health	Anchorage, AK	EW	Unknown	
\$5,000,000	\$10,000,000	Naknek Electric Association, Inc,	SW AK Regional Geothermal Energy Project	Drilling design, management and construction of a deep well to confirm the geothermal resource capacity and feasibility for developing utility grade electric generation and direct use heating.	Natural resources, geology, proximity to international shipping lanes and the region's emerging role in the international rush for control of Arctic resources make SW AK an attractive region for geothermal development and technology demonstration.	Naknek	EW	DOE	
\$5,000,000	\$10,000,000	Municipality of Skagway	Small Boat Harbor Renovations	Renovation of small boat harbor in Skagway through dredging, replacing existing floating docks and extending existing mooring system	Improves harbor to improve commerce	Skagway, AK	EW	Unknown	
\$5,000,000	\$15,000,000	Fairbanks North Star Borough	Geothermal Energy Project	Research and development work on an enhanced geothermal system designed to replace heat and power units at UAF.	Project would conduct research into a clean, renewable source of power that reduces energy costs while improving air quality.	Fairbanks	EW	DOE	Doug Fuller
\$5,000,000	\$25,000,000	APICDA	St. George Harbor Improvements	Completes harbor dredging and extends and reconfigures the breakwater	The federal govt has a long-standing obligation to complete St. George's harbor and St. George's Island is in the middle of the largest fishery in the US and home to extensive climate change research	St. George	EW	Corps/Gen Construction	C.J. Zane

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$5,000,000	\$30,970,000	Maniilaq Association	Power Grid and Telecom Infrastructure	Create a low cost permanent power grid and modern fiber telecommunications infrastructure	Provide lower energy costs and better communications to Western AK and Red Dog Mine	Kotzebue, AK	EW	Unknown	
\$5,000,000	\$116,800,000	SE AK Power Agency	Transmission Line for Southern SE	Currently under construction, this project would connect two hydroelectric facilities	Reduces pollutants and reliance on foreign energy source	Southern SE AK	EW	DOE, Water Power Energy	
\$6,000,000	\$6,000,000	Port of Anchorage	Port of Anchorage Intermodal Expansion Project	Provides funding for compensatory mitigation lands (i.e. wetlands/tidelands) resulting from losses Port of Anchorage Intermodal Expansion Project	The POA is a DOD "Strategic Port" and is responsible for the deployment of the Stryker Brigade, other military movements and is major rail port for the Alaska Railroad a DOD "National Defense Railroad"	Anchorage	EW	MARAD	C.J. Zane
\$6,744,966	\$8,178,930	City of Old Harbor	Old Harbor Boat Harbor	Redesign and construction of the community's boat harbor facility.	Protection of the local fishing fleet, safe harbor for all fisherman in Gulf of Alaska (only harbor for 40 miles in each direction), employment creation and preservation and support for Native Alaskan subsistence activities.	Old Harbor (Kodiak)	EW	Army Corps	
\$7,350,000	\$26,000,000	City of Sitka	Sitka Japonski Island Infrastructure Project Completion	Completes upgrade on deteriorating road and utility infrastructure	Japonski Island is a former WWII military base that was never properly rehabilitated for civilian use	Sitka	EW	EPA or RD	Larry Markley
\$7,652,000	\$7,652,000	Metlakatla Indian Community	Metlakatla/Ketchikan Transmission Line	Funds an electric transmission line to Metlakatla to help utilize Ketchikan's surplus of hydro power	Reduces consumption of fossil fuels used for generating energy	Annette Island	EW	DOE/Denali	
\$8,000,000	\$8,000,000	City of Akutan	Akutan Boat Harbor Construction	Constructs a boat harbor to hold an oceangoing tug and other emergency response equipment	3500 Cargo ships transit annually in this area in the multibillion dollar Asian shipping trade	Akutan	EW	Army Corps/Gen Construction	C.J. Zane
\$8,000,000	\$19,000,000	Aleutians East Borough	Akutan Boat Harbor Construction	Constructs a boat harbor to hold an oceangoing tug and other emergency response equipment	3500 Cargo ships transit annually in this area in the multibillion dollar Asian shipping trade	Akutan	EW	Army Corps/Gen Construction	Brad Gilman
\$8,000,000	\$27,000,000	City of Unalaska	Breakwater Construction	Continue Army Corps project to build a breakwater and floating wave barriers for new small boat harbor	Protect expansion of small boat harbor that houses the largest seafood port in U.S.>	Unalaska, AK	EW	Army Corps, Civil Works	Brad Gilman

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$9,000,000	\$18,000,000	Bering Straits Native Corp	Wind Energy Project	Install wind turbine and infrastructure in Native Villages	Lower energy costs for Native Alaskans and State and Federally funded service providers in Western AK	Nome, AK	EW	DoE, Energy Efficiency and Renewable Energy/Wind and Hydropower Technologies	
\$10,000,000	\$10,000,000	City of Sitka	Corps of Engineers Sitka Harbor Breakwater Upgrade	Improves and fixes an ineffective breakwater for Sitka Harbor constructed in 1994	Sitka Harbor is used by vessels along the entire Gulf of Alaska and provides shelter to ships harvesting a nationally significant fisheries resource	Sitka	EW	Army Corps	Larry Markley
\$10,200,000	\$14,000,000	Haines Borough	Haines Boat Harbor Construction	Funds the construction of a larger boat harbor	Promotes access to federally-managed fisheries	Haines	EW	Army Corps/Gen Construction	Brad Gilman
\$12,426,453	\$26,516,453	City of Ketchikan	Berths I and II Replacement Project	Replace the wooden sections of the berths	Economic development impact of the tourism industry as well as being an important part of the federal port system	Ketchikan	EW	Corps. Of Engineers, Construction	
\$13,000,000	\$20,000,000	City of Kenai	Kenai River Bluff Erosion Stabilization	Constructs a bluff stabilization structure to withstand tidal and river currents, improve drainage and re-grade the existing slope	Protects natural resources, the City of Kenai and Kenaitze Indian Tribe resources	Kenai	EW	WRDA/US Army Corps	
\$13,100,000	\$13,100,000	Bristol Bay Borough	Port Expansion Phase 2 and Fisherman's Small Boat Harbor	Replace the existing dock by enclosing the existing pile and concrete dock with sheet pile. Also, build a small boat harbor to support the fishing fleet and mitigate safety risks	Strengthen fishery and the main hub in SW AK	Naknek	EW	Corps. Of Engineers, Construction	
\$13,778,469	\$68,941,443	Alaska Electric Light and Power	Lake Dorothy Hydroelectric Project	Constructs 13.3 megawatt generator to serve Juneau	Reduces dependence on 6 million gallons of oil/year and promotes renewable energy	Juneau	EW	DOE	
\$15,000,000	\$30,000,000	Bering Straits Native Corp	Geothermal Evaluation and Exploration	Evaluate and explore Corporation land for geothermal energy resources	Lower energy costs for Native Alaskans and State and Federally funded service providers	Nome, AK	EW	DoE, Energy Efficiency and Renewable Energy/Geothermal Technologies Program	
\$16,927,000	\$16,927,000	Kenai Peninsula Borough	Williamsport Dock	Port improvements at Williamsport	None	Illiamna Bay	EW	Corps. Of Engineers, Construction	Steve Silver

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$17,000,000	\$35,200,000	Native Village of Eyak	Emergency Oil Spill Response Facility	Construct a new Emergency Oil Spill Response Facility and access road	Creates greater ability to react to an oil spill in Prince William Sound, protecting the environment and the fishing industry	Cordova, AK	EW	Unknown	
\$21,500,000	\$21,500,000	City of Kotzebue	North Shore Avenue Erosion Protection	Further, provide erosion protection	None	Kotzebue	EW	Corps. Of Engineers, Construction	
\$47,812,400	\$47,812,400	AK Village Electric Cooperative	Power Plant/Bulk Fuel Storage Upgrade Program	Replace primary generation facilities in the village of Mekoryuk and replace primary generation and/or bulk fuel storage facilities in Emmonak, Alakanuk, Stebbins, St. Michaels and New Stuyahok	Lower energy costs for Native Alaskans and State and Federally funded service providers	Anchorage, AK	EW	Unknown	
\$50,000,000	\$50,000,000	AK Natural Gas Development Authority	Propane Gas Extraction Plant	Extract propane from natural gas and distribute	Provide a low cost alternative to diesel and heating fuel in Alaska	Anchorage, AK	EW	DoE	
\$66,924,250	\$131,180,500	AK Village Electric Cooperative	Renewable Energy Program Expansion	Install Wind turbines and infrastructure in Alaskan Villages	Lower energy costs for Native Alaskans and State and Federally funded service providers in Western AK	Anchorage, AK	EW	Unknown	
\$250,000	\$250,000	City of North Pole	Sewer Jet-Vac Truck	Funds a truck used for emergency pumping and thawing of frozen sewer lines	Clean Water Act	North Pole	EW or AG	EPA or RD	
\$375,000	\$500,000	City of North Pole	Assesses Plans for a new Water Treatment Plant	Funds the assessment of the engineering and design of a Water Treatment Plant	Clean Water Act	North Pole	EW or AG	EPA or RD	
\$12,500,000	\$50,000,000	City of Sitka	Sitka Expansion to Max Capacity of the Blue Lake Hydroelectric Project	Constructs a new power tunnel and powerhouse contain an 8MW third turbine generator at the Blue Lake Hydroelectric Power Project	Ensures that the City of Sitka has sufficient electric power, as their power grid is entirely independent of any other grid, and reduces the use of fossil fuels needed to produce electricity	Sitka	EW or AG	DOE/Denali or RD	Larry Markley
\$384,000	\$2,754,190	Ketchikan Gateway Borough	South Tongass Volunteer Fire Dept.	Completion of the construction of the fire station	None	Ketchikan	HOM or INT	FEMA	
\$2,000,000	\$2,000,000	Northwest Arctic Borough	Kivalina Evacuation Route	emergency escape route	in danger of imminent disaster	Kivalina	Homeland		Ferguson
\$3,750,000	\$3,750,000	Kenai Peninsula Borough	Fire Station Construction	Constructs a community fire station on Diamond Ridge	Public safety	Diamond Ridge	Homeland or THUD	US Fire or EDI	
\$200,000	\$400,000	AK Wildlife Conservation Center, Inc.	Wildlife Shelter/Intern Housing Complex	Creates a new facility to provide better accommodations to interns	Provides unique educational experiences to students from across the US	Girdwood	INT		

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$200,000	\$600,000	AK Sea Otter and Steller Sea Lion Commission	Sea Otter and Steller Sea Lion Education and Conservation	Develop co-management plans for sea otters and sea lions for rural Alaska communities	Carry out the federal mandate of promoting the sound and responsible management of subsistence species in Alaska	Old Harbor, AK	INT	Bureau of Indian Affairs, Wildlife and Parks	
\$207,694	\$207,694	Chessh'na Tribal Council	Chistochina Electrification and Housing Project	Connects electric utilities to a new subdivision in Chistochina and provides 25 5-acre lots for new homes	Assists a Federally recognized tribe with community and economic development	Gakona	INT		
\$225,000	\$2,600,000	City of North Pole	Sewer Main and Manhole Rehabilitation	Reline and regrout sewer pipe and leaking manholes in the core of North Pole	Reduce contamination of ground water from leaks and protect city drinking water	North Pole, AK	INT	EPA	
\$250,000	\$280,000	Cook Inlet Tribal Council	Reforestation of Spruce Bark Beetle	Cook Inlet Bull Moose Camp provide Native and Indian youth by planting spruce saplings		Native Village of Ninilchik	INT		
\$333,413	\$383,413	Kawerak, INC	Western Arctic Caribou Herd Working Group	Group helps design and implement resource management plans for the largest caribou herd in Alaska	Works with communities and Federal agencies to ensure caribou are managed effectively for subsistence needs		INT	Unknown	
\$350,000	\$350,000	Mt. Sanford Tribal Consortium		update existing village based clinic	keeping with federal trust responsibility to	Mentasta Lake	INT		
\$400,000	\$400,000	AK Legal Services Corp.	Native Allotment Program	Represent Alaska Native clients in financial need during allotment hearings	Allows Alaska Natives to receive the allotments promised them by the Federal Government	Anchorage, AK	INT	Bureau of Indian Affairs	
\$400,000	\$500,000	City of North Pole	Sewer treatment Plant Sludge Removal	Remove accumulated sludge from aerated lagoons that biologically treat wastewater	Plant is a critical infrastructure facility for the North Pole Industrial Park which contains many critical utilities and businesses	North Pole, AK	INT	EPA	
\$400,000	\$500,000	City of North Pole	Wastewater Treatment Plant Engineering Study and Design	Study treatment works to determine the best way to ensure continued operation of 20 year old treatment plant	Allows for expansion and improvement to North Pole Industrial Park which contains many critical utilities and businesses	North Pole, AK	INT	EPA	
\$400,000	TBD	Northwest Arctic Borough	Multi-Use Facility	for village IRA, city government, post office		Buckland	INT	BIA	Ferguson

\$500,000	\$2,500,000	Alaska Soil and Water Conservation District	SE AK Forest Stewardship Program	Timber stands harvested by the corporation, as well as stands harvested by the U.S. Forest Service prior to corporation selection would be thinned for optimum timber production creating employment and economic enhancement.	Federal Government assistance would help expand the opportunity for the Native corporation to undertake rehabilitation and restoration work on roads and second-growth timber stands, achieving a variety of benefits to the corporation and to the public. Water quality would be improved for increased fish production. Subsistence opportunities for Sitka black tail deer and other wildlife would be improved through the thinning of over-stocked timber stands.	Ketchikan	INT	Forest Service	
\$500,000	\$4,563,000	Mt. Sanford Tribal Consortium	Multi-Use Facility	health clinic, office space	current services are provided by 2 single wide trailers and a log cabin	Chistochina	INT		
\$500,000	????	Chugach Regional Resources Commission		promote sustainable resources	35 jobs depend on funding	???	INT		
\$540,100	\$1,460,700	Hubbs-Seaworld Research Institute	Acoustic Ecology of the Polar Bear	Develop management and mitigation methods for effects of human made noise on polar bears	Help alleviate effect of industrial noise on ESA listed polar bears	Prudhoe Bay, AK	INT	DOI, USFWS/USGS	Amy Hammer
\$560,000	\$1,383,000	Wrangell Borough	Wrangell Landfill Closure	Funds a project to close a portion of the community's landfill	Improve solid waste management and run-off control	Wrangell	INT	EPA	Brad Gilman
\$750,000	\$750,000	Mat-Su Borough	Fish Passage Improvements	17 deteriorated culverts need replaced	Fish protection is primary purpose of USFWS	Mat-Su	INT	FWS	Ferguson
\$750,000	\$1,350,000	City of Petersburg	Water and Sewer Main Upgrade	Upgrade the water and sewer mains along five streets	Improve water and sewer management in accordance of the federal goals of reducing water pollution	Petersburg, AK	INT	EPA, State and Tribal Assistance Grants	Brad Gilman

Amount Requested	Total Project Cost	Requested by	Project Title	Description	National Significance	Location of Project	Approps Bill	Agency and Account	Lobbyist
\$750,000	\$4,000,000	The Conservation Fund	Salmon Habitat and Native Allotment Conservation - Alagnak Wild River	National Park Service would be able to acquire five native allotments with the assistance of a 25% private match. Approximately 500 acres in 5 properties will be conserved through conservation easements or fee acquisition.	This project will sustain fish and wildlife habitat with the focus on wild salmon; a group of anadromous species subject to international treaties. Water quality and wetlands will be conserved in a Federal conservation unit. The project will have broad based benefits for ANCSA Native Corporations, local Native landowners (Indian trust responsibilities), subsistence users, and businesses such as commercial fishing, lodges, guides and other recreational service providers.	SW AK	INT	INT/NPS	Birch Horton
\$750,000	\$4,600,000	The Conservation Fund	Salmon Habitat and Native Allotment Conservation - AK Peninsula and Becharof National Wildlife Refuges	U.S. Fish and Wildlife Service would be able to acquire within the Alaska Peninsula and Becharof National Wildlife Refuges eight native allotments with the assistance of a 25% private match. Approximately 700 acres in 8 properties will be conserved through conservation easements or fee acquisition.	This project will sustain fish and wildlife habitat with the focus on wild salmon; a group of anadromous species subject to international treaties. Water quality and wetlands will be conserved in a Federal conservation unit. The project will have broad based benefits for ANCSA Native Corporations, local Native landowners (Indian trust responsibilities), subsistence users, and businesses such as commercial fishing, lodges, guides and other recreational service providers. Hunters, anglers, other segments of the recreating public and associated economic interests will all benefit.	AK Peninsula	INT	INT/NPS	Birch Horton
\$800,000	\$800,000	Ketchikan Gateway Borough	School District Fire Suppression Water Storage Tanks	Design and construction of two fire suppression water storage tanks for local elementary schools.		Ketchikan	INT	EPA	Steve Silver

\$5,000,000	\$5,000,000	Pacific Environmental Corporation	Alaska iSCWO	Construct an environmentally friendly state-of-the-art disposal process for hazardous wastes currently shipped out-of-state	Provide Alaska and Alaskan based military with increased infrastructure resulting in local high technology jobs and a new Alaskan business which will reduce the environmental and business risks associated with hazardous wastes generated within the state.	Fairbanks	DEF		
\$1,600,000	\$13,800,000	The Jesse Lee Leadership Residential Charter School	Jesse Lee Leadership Residential Charter School	The Jesse Lee Leadership Residential Charter School will provide high quality education to Alaska's youth in a setting that exists nowhere else in the country.	We propose to restore the facilities as a residential charter leadership school for high-school youth. Youth statewide will come to the Jesse Lee Home to study with local day students in Alaska's only residential charter school, learning through competency-based educational techniques about the sciences, mathematics, politics, technology and the humanities at the same time as they learn about what makes Alaska work: hands-on skills like plumbing, engine repair, and healthcare. Students will attend semester-long courses and return to their home communities, maintaining their ties to their families and culture.	Seward
